

Horizontale schaal 1/500  
 Verticale schaal 1/500  
 Referentievlak 5.30 mTAV

The diagram shows a longitudinal profile of a road section. The top line represents the 'ontworpen toestand' (designed condition), and the line below it represents the 'bestaande toestand' (existing condition). The profile includes a drainage ditch with a depth of 200mm. The road is connected to the existing infrastructure at 'aansluiting op PRL\_BN\_23\_6' and 'aansluiting PRL\_BN\_2'. The elevation at the start is '0.00 mTAW'. The profile is divided into sections by vertical lines, and the drainage ditch is shown as a dashed line.
